ELAZEN SPA & WELLNESS

With a 50-year heritage and a philosophy rooted in "Respect and Love for Nature," Elazen Spa & Wellness stands at the forefront of spa rituals and skincare treatments, offering cosmetic products developed with exceptional care for skin and body health. Designed to deliver intensive, instant, and long-lasting beauty results, these treatments support the restoration of the skin's natural rhythm, strengthen the skin barrier, renew overall health, and combat signs of aging through valuable active ingredients. With a firming effect on facial contours, they provide a radiant, fresh, youthful, and firm appearance, offering personalized protocols and innovative formulas suitable for every skin type.

Elazen Spa exclusively selects environmentally friendly cosmetic products that leave no carbon footprint, respect traditional harvesting and production methods, and are manufactured with great environmental sensitivity. Enriched with healing natural stones, medicinal and aromatic plants, and powerful natural active ingredients derived from nature, these cosmetic formulas are developed using innovative and high-technology methods to deliver exceptional results.

TRADITIONAL TURKISH HAMMAM

Rooted in ancient traditions, the Turkish Hammam culture aims to refresh both body and soul, revitalizing the body and creating a profound sense of renewal. These healing purification rituals, inspired by traditional hammam culture, are among the most preferred treatments for relieving physical and mental fatigue and restoring inner balance. In the authentic and soothing atmosphere of the hammam, the ritual begins with a Water Salutation Ceremony that prepares the skin for purification through the gentle warmth of steam and marble stone. This is followed by a traditional exfoliation treatment and concludes with a silky foam massage, completing the hammam ritual in a deeply relaxing experience.

MASSAGES

By blending healing botanical extracts, holistic natural aromas, and specially formulated oils with therapeutic massage rituals, Elazen Spa offers a unique experience in perfect harmony. Inspired by the ancient wisdom of both Eastern and Western traditions, these massage techniques bring you into a state of physical and emotional serenity, allowing you to feel fatigue melt away. Our carefully curated massage collection includes techniques ranging from Classic Swedish Massage, developed in 1812 by Swedish physician Per Henrik Ling, to relaxing Mediterranean Aromatherapy, as well as authentic Far Eastern and holistic therapies.

AYURVEDIC HOLISTIC RITUALS

From traditional Indian Ayurvedic rituals to healing remedial therapies, Elazen Spa offers a rich massage menu that delivers a truly transformative experience. Through holistic touches applied to the entire body, the nervous system is stimulated, blood and lymph circulation are regulated, and guests feel mentally relaxed and detoxified.

Ayurveda, meaning "The Science of Life" in Sanskrit, is a 5,000-year-old natural healing system rooted in India's Vedic culture. It is a holistic body of knowledge that helps individuals reach their full potential by maintaining balance in every aspect of life. One of the core pillars of Ayurvedic treatment is massage therapy. These healing rituals address the body and mind as a whole, promoting renewal, relaxation, and restoration by channeling vital life energy throughout the body. Accumulated negative energy is released, muscle tension is relieved, the body is strengthened, early signs of aging are prevented, and wrinkles are reduced.

HAIR & BEAUTY SALON SERVICES

Our salon offers premium services including barber treatments, hairstyling, hair coloring, keratin care, hand and foot treatments, nail design, and trend-driven braiding and hairstyling services specially designed for teens and children—all delivered using carefully selected, high-quality brands.

IDEAL BODY CARE

With ozone sauna, pressotherapy devices, algae treatments, and specialized massage techniques, Elazen Spa effectively reduces localized fat and cellulite while delivering visible results in body shaping and contouring.
